Legacy of the Dirty War: Political Cartoon Study of Pope Francis

In 2013, Pope Francis, the former Jorge Mario Bergoglio, archbishop of Buenos Aires, began his papacy under the dark cloud of the Dirty War. Questions arose about the archbishop not doing all he could to help kidnapped Jesuit priests. What was the role of the church during this Process of National Reorganization? Was the clergy passive because of close ties between the church and the military? In this activity, artist Milt Priggee illustrates how we can use political cartoons to learn about the past.

Objectives
Students will:
- study techniques political cartoonists use to express their most important social and political views
- analyze a political cartoon featuring Pope Francis and the shadow of the Dirty War
- research articles that support Priggee’s point of view
- research articles that discuss the opposing point of view
- create his/her own political cartoon about the Dirty War

# Cartoonists’ Persuasive Techniques

| **Symbolism** | Cartoonists use simple objects, or symbols, to stand for larger concepts or ideas.  
After you identify the symbols in a cartoon, think about what the cartoonist means each symbol to stand for. |
| **Exaggeration** | Sometimes cartoonists overdo, or exaggerate, the physical characteristics of people or things in order to make a point.  
When you study a cartoon, look for any characteristics that seem overdone or overblown. (Facial characteristics and clothing are some of the most commonly exaggerated characteristics.) Then, try to decide what point the cartoonist was trying to make by exaggerating them. |
| **Labeling** | Cartoonists often label objects or people to make it clear exactly what they stand for.  
Watch out for the different labels that appear in a cartoon, and ask yourself why the cartoonist chose to label that particular person or object. Does the label make the meaning of the object clearer? |
| **Analogy** | An analogy is a comparison between two unlike things. By comparing a complex issue or situation with a more familiar one, cartoonists can help their readers see it in a different light.  
After you’ve studied a cartoon for a while, try to decide what the cartoon’s main analogy is. What two situations does the cartoon compare? Once you understand the main analogy, decide if this comparison makes the cartoonist’s point more clear to you. |
| **Irony** | Irony is the difference between the ways things are and the way things should be, or the way things are expected to be. Cartoonists often use irony to express their opinion on an issue.  
When you look at a cartoon, see if you can find any irony in the situation the cartoon depicts. If you can, think about what point the irony might be intended to emphasize. Does the irony help the cartoonist express his or her opinion more effectively? |
